

DF-1000C-1600C Diamond Core Drill

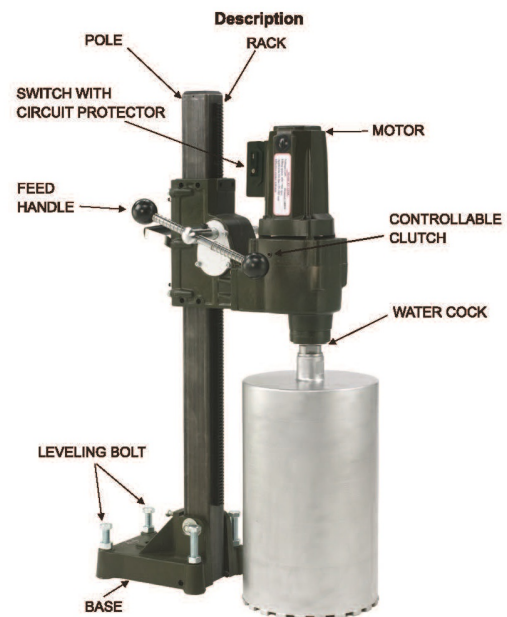

Features and benefits:

- Powerful motor with large gear case for professional drilling
- Motor overload circuit protector for enhanced safety
- Patented LED electric current indicator with yellow light for motor protection
- Built-in adjustable clutch system to prevent jams with core bits
- Feeding handle insulation to prevent electric shock
- Adjustable drilling angle up to 45 degrees
- Two-speed functionality for versatile use
- High-quality, robust aluminium construction
- Compact and portable design

Revolutionize your drilling experience with the DF1000C, DF1600C– a cutting-edge professional drilling solution engineered for excellence!

Power-Packed Performance: Equipped with a robust motor, large gear case, and gear system, the DF1000 is your go-to tool for any drilling challenge.

Model	DF-1000C	DF-1200C	DF-1600C
Voltage	220V	220V	220V
Power	220V - 3520 W	220V - 3520 W	220V - 3520 W
Rotation / RPM	500/1000 rpm	360/630 rpm	270/460 rpm
Drill hole diameter	25-254 mm	25-305 mm	25-406 mm
Drill depth	520 mm	620 mm	620 mm
Height	750 mm	960 mm	960 mm
Machine weight	21.8 kg	30 kg	31 kg
G.W	27 kg	35 kg	36 kg
Two step speed	YES	YES	YES
Package size	49*31*83 cm	52*31*108 cm	53*31*108 cm
